

06 Loops

for loop syntax

```
for initialisation; condition; post {  
}
```

infinite loop

The syntax for creating an infinite loop is,

```
for {  
}
```

```
result, err := svc.GetObject(&input)
```

```
if err != nil {
```

```
if aerr, oke := err.(awserr.Error); oke {
```

```
switch aerr.Code() {
```

```
case s3.ErrCodeNoSuchKey:
```

```
fmt.Println(s3.ErrCodeNoSuchKey, aerr.Error())
```

```
default:
```

```
fmt.Println(aerr.Error())
```

```
}
```

```
} else {
```
